TOLL THE BELL, THE BRAVE ARE Fillipoo Neri: He was living at one SLEEPING.

BY W. C. HOSMER.

Toll the bell, the brave are sleeping And their swords are sheathed for ever With our sorrows and our weeping We can wake them never.

Beat the muffled drum, ye mourners! For their proud career is o'er, From the battle field returners To their homes no more.

Toll the bell! the field of honor Saw our best and bravest perish, Let us, though a cloud is on her, Our beloved country cherish. Let the native land they wrought for Rear the stainless marble high, To the glorious realm they fought for They have breathed "good by."

Toll the bell! our dead are slumbring On a thousand fields of glory; Gallant victims, far outnumb'ring

Hosts of ancient story. Let a solemn oath be taken That their names shall perish never; Our brave Union stands unshaken And exists forever.

Resolved, That we should be recreant to our past history, false to our fallen comrades whose memories we hold dear, false to the cause for which they fell, false to humanity, false to liberty, did we not protest against the assumed right to represent us by a few of our old comrades, who for the spoils of office renounce the principles for which they battled, and lend their influence to support the policy of President Johnson, whose avowed object is to reinstate traitors whom we fought to depose. You are just starting in life with the world all before you, when and how to choose Beware how you connect your fortunes with a decayed and dishonored party, indelibly stained with treason, and upon whose tombstone the historian will write; "False to liberty, false to its country, and false to the age in which it lived." The democratic party has committed a crime for which history has no pardon, and the memories of men no forgetfulness; whose colors grow darker from age to age and for which the execration of mankind becomes more bitter, from generation to generation.

### REPRESENATION.

A new era has arisen. Slavery has ceased to exist. The present provision of the constitution recognizing "three-fifths of all other persons," mean ing slaves, has become a nullity. The Constitution no longer admits the antithesis of "free persons" and "all other persons." The Constitution must be changed to recognize this existing fact. If the freed population of the south and of the Republic are counted into the representation, they must have the elective franchise. Justice, right, and the very salvation of the nation demand it. Enumeration of the freedmen without their access to the polls, would be representation, not of them, but of the disloyal, rebel majorities of table: the south. Equality at the polls and representation must go hand in hand They are political Siamese twins. By the terms of the proposed Constitution al amendment, the rebels gain no in crease of political power as the resul of the rebellion. If they don't choose to enfranchise the blacks, these blacks are not counted in. A white man has no right to vote for two black men, es pecially when they do not give their consent. A rebel cannot thrust his su perior political power into the eyes and faces of northern mudsills and clain thereby our submission to all his impe rious demands. We appeal to any can did democrat-are you willing to re ceive the rebel states with a larger rep resentation than before the war, and hence increased political power? A BODY CALLED, OR WHICH AS-SUMES TO BE THE CONGRESS OF THE ELINETED STATES.

The above is the language of the President. What does he mean?-Nothing more nor less than revolution! He wishes to impress upon the people that Congress is not a legal, valid body so as to enable him the more effectually to carry out his revolutionary plans. This was the course pursued by Napoleon prior to his coup de ctat. To whom does he address these words? To the delegates of the Philadelphia convention, in the light of open day, and he means that the poison, if possible shall permeate and be absorbed by the people, and thus prepare them for revolution. The Doctor devotes the Evening hours to Pubthe Doctor devotes the hyening hours of the tectures, and the day-time to the practice of Medicine and Surgery, and in this way enjoys, to a more than ordinary degree, the means of familiarity alike with the theory and practice of the Healing Art. The Lectures place him, so to the Healing Art. The Lectures place him, so to say in a centre of discussions, conversations and reports on the effects of different remedies and modes of treatment, and compel him to keep thoroughly informed as to the most recent discoveries improvements and experiments, whether made wichin the regular profession, or by the less orthodox schools—the homeepaths or others, or yet by the common people, who, while generally the greatest sufferers from illness, and the subjects of the most numerous experiments in treatment, have often the good sense to appreciate the results, and to add very much that is useful to yor knowledge of the means of cure, much that at last finds its way into books and science, but that at first is generally deposited with the popular lecturer on these subjects.

at last finds its way into books and science, but that at first is generally deposited with the popular lecturer on these subjects.

The Doctor's journeyings through all parts of the country, afford him unlimited opportunities of attending college clinics, witnessing the operations of the most eminent surgeons of the day, and observing the treatment and practice in the different hospitals and other institutions, as the asylums for the insane, &c., and also the influence of the different localities and climates in causing and curing disease—such opportunities as are enjoyed by very few in this world. That he has the ability to avail himself of them, may be inferred from the crowded and enthusiastic audiences that everywhere attend his Lectures—audiences composed largely of the clite of the cities and villages in which they are delivered and that invariably continue to increase in both numbers and intelligence, the lenger the course continues; that he has endeavored faithfully to improve them is evident, from the throng of patients that may be found at all hours of the day in his reception rooms, which are often full continues. We write this at Chapinville, a small section of Salisbury, Connecticut, where resides the mother of F. W. C., your late citizen, whom, and others of his kindred he is now leisurely visiting.-In this region are his two daughters, who are old enough to appreciate the beautiful and to think that there is no place quite as enterprising and splendid as Ypsilanti. At this place are grocery stores more than needed to improve them is evident, from the throng of patients that may be found at all hours of the day in his reception rooms, which are often full long before he rises in the merning and continue so till the time for the evening lecture people being frequently compelled to wait six or eight nours, or have special appointments made for days in advance, before he can attend them at all. Parties from a distance should bear this in mind. The longer he remains in a place, the more dense and impatient the crowd becomes, till he is at ast compelled, from sheer exhaustion and fatigue, to leave it, to gain a little rest before commencing the wild whirl elsewhere.

Much the greatest part of the Doctor's practice is with chronic cases that have long been treated unsuccessfully by others. "I have tried a many," they say, "and paid out so much and got no help, that I am entirely discouraged," or, "if you kin whow I have been served, you would not blame me for not coming to you sooner or for not trusting any one." Others have been nilling long, but able to be about, have mentioned their sufferings to their family physician "over and over again," I ut so long as they were not sick in bed, he did to thing for them, or said they were lazy or whimsical, and that they would be all right by and over. LET US RATIFY THE THUNDER FROM MAINE.

There will be a good old-fashioned Rally at Hewitt Hall on Friday even ing next, to Ratify our State and Con gressional Nominations, and send back a proper response to the thunder tone of the "Boys in Blue" from Maine GEN. CARL SCHURZ will address the people. He will appear under th auspices of the "Michigan Boys in Blue." The people of the North are determined that a Southern Rebel shall never exercise superior political franchises to a Northern Patriot.

Rev. Dr. Binney. This much esteemed missionary preached at the Baptist Church last Sabbath morning. It was a matter of universal regret that the weather prevented a larger attendance. The Office. sermon was one of great power. The theme was the conquest of the internal and external world by faith. Fighting the world, or simply resisting it, is not overcoming, but so using its pleasures, its joys and its wealth as not to abuse. By a sanctified faith, a will nerved by divine power, grasping the world and laying it as a holocaust at the feet of Jesus. The discourse was calculated to set every hearer to thinking. A happy incident was connected with his visit. Mr. S. M. Loveridge, detained at home on account of sickness sent a note, wishing the doctor to call. He did so, and on parting Mr. L. presented him with \$100 for the Theological School at Rangoon, Burmah.

H. Bevier. One of our citizens, sold out last Fall and went to Kentucky. He has returned well cured of old Kentucky. He says it is a fine country to live in-good soil, and genial climate. But there are too many rebels, alias democrats there to allow a Northern man to these democratic committees to leave. They would not patronize him. He wore at one time a soldiers coat with the buttons off, but an ex-rebel soldier ordered him to take it off, declaring he should not wear a Federal garment in Kentucky. Our staunch Union friend told him to take it off if he could. He says a Northern man cannot do business there. Such is democratic rebel rule under "my policy."

Soldiers Meeting. Down with the traitor, up with the stars. Rally round the flag boys, rally once again. Shouting the battle cry of Freedom."

There will be a meeting at Samson's Hall this Saturday evening of the soldiers and sailors who are opposed to giving traitors | cough, colds, coughs, and all throat superior political privileges to Union Sol- plumonary complaints. diers who fought and bled on many a battle field, and were starved at Richmond and Andersonville. Rally, boys, for the good old flag and your country once more. Gen Carl Schurz will speak under the auspices of the "Boys in Blue" next Friday evening at Hewitt Hall. Let us have a rouser!

Rare Merit. We have had the pleasure of examining some pictures of real worth, and executed by the great American Artist John Sartain of Philadelphia. The Maiden's prayer. Lit tle Samuel. They are complete and finished Steel engravings Every parlor ought to be adorned with one or both. A very worthy young gentleman is canvasing the city and giving our citizen an opportunity to secure

We take pleasure in inviting the citizens of Ypsilanti, to the exhibition of Paintings in the Post Office buildings. The Artist, Miss Whiton, is recently from Troy New York and commences a class in Oil Paintings, Monday Sept. 24th. As Miss Whiton comes highly recommended, we bespeak for her a liberal patronage. Terms, twelve dollars for twenty-four lessons. Miss Whiton has taken rooms at the Hawkins House.

Demorest's Monthly Magaziny for Oc\_

For beauty of typography, splendid engravings, and excellence of literary matter, this popular periodical is without a rival on this continent. Its "make up" exhibits the highest order of taste in magazine literature, and it is as useful as it is beautiful.

Mr. Wright gave a powerful speech at Hewitt Hall last Tuesday evening. The weather was not favorable, but there was quite a turn out. There is a good deal of persevering enthusiasm in the Good Templars lodge. It is growing finely and coming to be a power.

Trade.

The last few days has been dull on account of the weather. But the following dry goods and clothing firms are early in the market and taking the lead as to prices and patronage. A. Williams, Dwelle Noble & Robbins, S. Hesslein & Co., S. Post & Co., Henderson & Glover, McLachlen and Hurlburt.

Ann Arbor News.

The Baptist institute for Theological discussion has been of a very interesting character. The attendance was large about 60 ministers. Rev. S. N. Burton D. D. has accepted the pastoral charge of the Baptist Church and is already on the ground at work.

We would call attention to Dr. Mattocks advertisement in another column. Dr. Mattocks is an old experienced physician and while stopping with Mr. John M. Sweet, three miles west of Ypsilanti, a few weeks he tenders his services to any who are suffering with chronic disease, he claims to cure in all cases where the vital organs are not broken down with ulseration, his treatment is mild, all vegetablee syrlive in the State. He was notified by one of ups which act chemically on the disease, the most reasonable doctrine yet advanced, do not fail to call on him while he is here. It will not cost anything to consult him.

> PROCRASTINATION IS THE THIEF OF TIME.—By delaying and forgetting to have a supply of Coe's Dyspepsia Care in the house, ready for immediate use, you may have to suffer, for many hours, pain and distress in the stomach, which would be immediately cured if you already had it on hand, ready for mmediate use. It is immediately cured permanently Dyspepsia and all of its kindred troubles.

SPECIAL NOTICES,

ALBION COMMERCIAL COLLEGE. - The success of this popular institution is entirely attributable to its substantial merit. Although modest in pretensions, it is uncerpassed in excellence. A recent poard of visitors properly say in their report: "It is much le ter than most that claim perfection," Hon. IRA MAYHEW, President, author of "Mayhew's Practica; Book-keeping," gives regular courses of lec tures on which all students attend. The Principals of Departments are also accomplished and successful instructors. Persons desirous of obtaining a good business education here enjoy rare privileges at moderate cost. REASONS WHY The AMERICAN WATCH, made at Waltham, Mass. is the best .-

It is made on the best principle. Its frame is composed of solid plates. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly

At the begining of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories which are entirely unsaleable at home and

perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make more than half of all the watches sold in the United States, and that no others have given such universal satisfaction. While this de partment of our business is continued with in creased facilties for perfect work, we are at present engaged in the manufacture of watch es of the very highest grade known to chron-ometry, unequalled by anything hitherto made by ourselves, and unsurpassed by any-thing made in the world. For this purpose we have the amplest facilties. We have erectd an addition to our main buildings express for this branco of our business, and have illed it with the best workmen in our service New machines and applicants have been con structed, which perform their work with con-summate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the same money our product is incomparably superior. all our watches, of whatever grade, are fully warrented and his warrantee is good at all times against us or agents in all parts of the world. Caution .- The public are cautioned to buy only of respectable dealers. All persons sell-

ing courterfeits will be prosecuted.

Commonwealth, Wilmington, Delaware, 9th of April, 1859:

"An English gentleman, formerly connected with the British Army, and who styles himself the 'English Botanie Physician,' has of late gained an extensive reputation here by his skill in curing all manner of complaints. Some of his patients I have conversed with, and they proneunce his remedies and mode of treatment as very superior. Some have been restored as if by magic. The medicine he used is distilled by himself from varieus herbe possessing rare curative properties.

"While acting in the army he devoted his leisuro moments to a thorough study of the effects produced by certain medicinal roots and herbs on fall manner of diseases. It seems he has found a sure and speedy remedy for all the 'fills that flesh is heir to.' His practice is already extensive, and is daily increasing. In the complaints to which females are subjected he has no equal, as a large number here have testified that they owe not only their present good health, but their lives, to the skill of this English Botanic Physician."

GONTEMPLATING MARRIAGE.

Hear what the Baltimore correspondent of the Odd follow, Boonsbore', Marykazd, said on Thursday, the 31st of May, 1830:

"Numerous cures of diseases caused by early indiscretion naving been performed by the English Extanic Physicians, I feel it may duty, having a knowledge of them, to state the fact, believing that in doing so I may do a service to the suffering. One suse in particular—that of a young mans in this city—is worthy of note. He had become the victim of a habit, the mere allusion to which causes a shudder, and after years of suffering and doctoring gave up all hopes of recovery. He wished to marry, and was dearly beloved by as sweet a girl as ever lisped words of affection, but he was fearful, nervous, and prostrated. He dared not wed on account of the shattered state of his system. He sought relief at the hands of the Botanic Physician, and, astenishing as it may seem, all the bloom and vigor of youth has returned, and he is now the heappy father of a pair of bright boys."

#### NEWS FOR THE LADIES. A PREVENTIVE TO HAVE CHIL DREN.

Hear what the Cincinnati Weekly Press says on the 6th of March, 1862:

We are decidedly opposed to drugs and to advertised remedies for the prevention of having children, but we feel it our duty to acknowledge a benefit from any and from every source when it is for the relief of suffering humanity. A fact has come to our knowledge that ought to be promulgated and widely circulated for thebenefit of those ladies whose delicate health makes is necessary to prevent any increase of family.

About twelve months after marriage, a lady of our acquaintance gave birth to a daughter, but her sufferings were so great that her physicians despaired of her recovery. This made her dread the very thoughts of again becoming a mother. She tried every thing to prevent a repotition of her sufferings, but without succeeding. Two, years after marriage she was again confined, but her sufferings were so great that the child died, and her own life was despaired of. She was told by her family physician that if she had any more children he feared her life would be the forfeit. As all the remedies she had tried before had failed, she applied to the Botanic Physician, Dr. RAPHAEL, Hear what the Cincinnati Weekly Press says on the 6th
